

Aslan 100 GFRP rebars

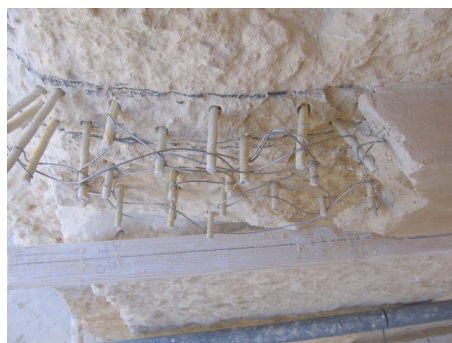

NON FERROUS REINFORCEMENT

GFRP anchors for ancient fortress in Malta

Fort Manoel, in Valletta, built by the Knights of Malta in 1723, represents the zenith of star fort design. The fort is currently undergoing restoration works to repair damages sustained during the second world war . Works are supervised by AOM partnership.

Vaults Co.Ltd was contracted to restore the old fortress and the chapel. They are using Aslan 100 as pins to anchor the new stones to the eroded stone wall.
