

Transmission & Distribution Materials • Aslan FRP • Timber Bridges

Subject: **RoHS COMPLIANCE STATEMENT**

Date: October 24, 2006

1. Scope

This Statement is to clarify that Hughes Brothers, Inc. products comply with the European Union's (EU) Directive 2002/95/EC on the restriction of the use of certain hazardous substances in electrical and electronic equipment. This EU Directive (a.k.a. "RoHS") was established on January 23, 2003 and requires that all new electrical and electronic equipment comply by July 1, 2006.

Equipment suppliers, contractors and electrical utilities use Hughes Brothers, Inc. products in their electrical transmission and distribution construction projects in EU countries. As a result, Hughes Brothers, Inc. has issued this compliance statement.

2. RoHS Restricted Materials

Lead - 0.1% of weight	Polybrominated Byphenyls - 0.1% of weight
Mercury - 0.1% of weight	Polybrominated Diphenyl Ethers - 0.1% of weight
Hexavalent Chromium - 0.1% of weight	Cadmium - 0.01% of weight

3. Compliant Materials and Finishes

The following materials (non-finished) comply with RoHS	The following finishes comply with RoHS
Carbon Steel	Hot Dip Zinc Galvanizing
High Strength Steel	Hot Dip Zinc Galvanizing
Douglas Fir Solid Sawn Wood & Laminates	Pentachlorophenol Pressure Treated Wood
Glass Fiber Vinyl-Ester Resin Composites	Acrylic Enamel Urethane

4. Summary and Certification

Hughes Brothers, Inc. has several thousand part numbers and it's impractical to list all those that comply with RoHS. Through mass balance calculations, process chemical analysis and coating thickness measurements Hughes Brothers, Inc. has determined that all the parts manufactured by the company are RoHS compliant.

5. Certification

Dated: 24 October 2006

James M. Stull
Quality Assurance Manager
